First-Level Assessment

HAG-WALKIN-L1-v5

Questions	15 (all multiple choice)
Marks	15 — 1 per question
Duration	20 minutes
Negative marking	None
Sections	A (4) · B (4) · C (4) · D (3)
Taken at	hr-hiring-automation.vercel.app/test.html

⚠ EVALUATOR COPY — CONTAINS THE ANSWER KEY

Never issue this document to a candidate. It marks the correct option for every question. One copy leaked in the hall invalidates the day's results.

Option order is shuffled per candidate on the online test. The A/B/C/D letters here are the canonical order and will *not* match what any individual candidate saw on their phone — match by the option text, not the letter.

The paper is not AI-proof. A language model answers these situational questions very well. Invigilation — phones collected at the desk — is the control.

Section A — Work Attitude & Ownership

Q1–Q4 · 4 marks

Q1

A

Situation. You realise you have made a mistake that will affect someone else's work. Nobody has noticed it yet.

What should you do?

- A Say nothing — nobody has noticed it
- B Inform your senior and the person affected, and correct it straight away** ✓
- C Correct it quietly and do not mention it to anyone
- D Wait until somebody points it out, then explain

Answer: B. A mistake that touches somebody else's work is not yours to hide or to quietly patch — they may already be building on it. Reporting it early costs far less than it being discovered later.

Q2

A

Situation. You are given a task you have never done before, and your senior is not available to explain it.

What is the best thing to do?

- A Wait and do nothing until your senior is free
- B Guess your way through the whole task
- C Start with the part you clearly understand, note your doubts, and confirm them as soon as your senior is free** ✓
- D Ask a colleague to do it for you

Answer: C. Neither freezing nor guessing. Make progress where you are sure, and hold the parts you are not sure about until you can check them — that way no time is lost and nothing is done wrong.

Q3

A

Situation. You have finished your work for the day. A colleague is struggling with an urgent job, and you have a personal commitment in the evening.

What should you do?

- A Leave without saying anything — your work is done
- B Help for as long as you can, then tell your senior what is still pending** ✓
- C Cancel your commitment and stay however long it takes
- D Tell the colleague it is not your responsibility

Answer: B. Helping matters, but so does being honest about your limits. Give the time you have and hand over clearly — silently leaving and silently sacrificing everything are both worse than a clear handover.

Q4

A

Situation. Your senior asks you to do something in a way that you believe is wrong.

What should you do?

- A Refuse to do it
- B Do it without saying anything
- C Do it your own way instead

D Tell your senior clearly why you think it is wrong, and then follow their decision

Answer: D. You owe your senior your opinion, and then their decision. Staying silent wastes what you know; refusing or quietly doing it your own way removes their ability to decide at all.

Section B — Communication & Teamwork

Q5–Q8 · 4 marks

Q5

B

Situation. In a meeting, a decision is taken that you disagree with.

What is the right thing to do?

- A Say your view clearly in the meeting, and once the decision is made, support it**
- B Stay quiet in the meeting and share your disagreement with others afterwards
- C Keep arguing until the decision is changed
- D Agree in the meeting but do it your own way later

Answer: A. Disagree in the room, commit outside it. Complaining afterwards or quietly doing something else is how teams stop trusting each other.

Q6

B

Situation. You will not be able to finish your work by the deadline you were given.

When and how should you tell your senior?

- A On the deadline day, once it is confirmed you cannot finish
- B As soon as you know, with the reason and a realistic new date**
- C Say it is done and finish it quietly afterwards
- D Explain that it was not possible because of others

Answer: B. Early warning gives your senior options; a deadline-day surprise gives them none. The reason and a realistic new date are what make it useful rather than just an apology.

Q7

B

Situation. Someone gives you critical feedback about your work in front of others.

What is the best response?

- A Explain immediately why they are wrong
- B Accept it politely and then ignore it
- C Listen, ask what specifically you should improve, and act on it** ✓
- D Say nothing and avoid that person afterwards

Answer: C. The useful part of feedback is the specific change it asks for. Asking for that turns criticism into something you can act on — arguing, ignoring or withdrawing all waste it.

Q8

B

Situation. A colleague repeatedly presents your work as their own.

What should you do first?

- A Say nothing to avoid conflict
- B Confront them about it in front of the team
- C Speak to the colleague privately first, and raise it with your senior if it continues** ✓
- D Start doing the same with their work

Answer: C. A private conversation solves most of these and costs nothing. Escalate only if it continues — and never handle it by embarrassing them publicly or by copying the behaviour.

Section C — Reliability & Time Management

Q9–Q12 · 4 marks

Q9

C

Situation. You have three tasks to do and it is clear you cannot finish all of them today.

What should you do?

- A Do the easiest ones first so that more tasks get completed
- B Do them in the order you received them
- C Do a little of each so that all three show some progress
- D Ask your senior which is most important, and finish that one properly** ✓

Answer: D. Only the person who owns the work knows what matters most today. Order of arrival, ease, or spreading yourself across all three are all ways of choosing without asking.

Q10

C

Situation. You come to know that you will not be able to come to work tomorrow.

What should you do?

- A** Inform your senior today, as early as possible ✓
- B** Inform your senior tomorrow morning
- C** Ask a colleague to pass on the message
- D** Send a message after the working day has already started

Answer: A. The earlier it is known, the easier your work is covered. Passing the message through somebody else leaves it to chance whether it arrives at all.

Q11

C

Situation. Your senior gives you a long list of instructions verbally, one after another.

What is the best thing to do?

- A** Concentrate hard and try to remember everything
- B** Note them down, and repeat them back to confirm you have understood correctly ✓
- C** Start with whatever you remember and ask again later
- D** Ask a colleague afterwards what was said

Answer: B. Writing it down protects against forgetting; repeating it back protects against having misunderstood. The second half is the part most people skip.

Q12

C

Situation. You are given a repetitive task that you find boring, and it takes up most of your day.

What should you do?

- A** Rush through it to get it over with
- B** Keep postponing it and do more interesting work first
- C** Do it properly, and suggest to your senior a better way of doing it in future ✓
- D** Do it slowly, since it is boring anyway

Answer: C. Boring work still has to be right. The person who does it properly and then proposes a better method is the one who gets trusted with more interesting work.

Section D — Problem Solving & Judgement

Q13–Q15 · 3 marks

Q13

D

Situation. The same problem has come up three times. Each time it was fixed, and it has now happened again.

What is the best action?

- A Fix it again and keep watching it
- B Find out why it keeps happening and correct the cause** ✓
- C Report the person who keeps causing it
- D Accept that it will keep happening and plan around it

Answer: B. The same problem four times is one cause, not four incidents. Fixing it a fourth time without finding out why guarantees a fifth.

Q14

D

Situation. Someone asks you a question about your work and you do not know the answer.

What should you do?

- A Give the most likely answer so that you do not look unprepared
- B Say you do not know and leave it there
- C Tell them you will find out, give them a time, and get back to them** ✓
- D Change the subject and hope they forget

Answer: C. Not knowing is normal; not following up is not. Committing to a time turns it into a promise you can keep, and guessing risks somebody acting on a wrong answer.

Q15

D

Situation. Two different seniors give you instructions that contradict each other.

What should you do?

- A Follow whichever one is more senior
- B Follow whichever instruction seems more sensible to you
- C Tell both of them about the conflict and let them agree on what should be done** ✓
- D Do neither until somebody notices the problem

Answer: C. You cannot resolve a conflict between two people's instructions by choosing one of them privately — whichever you pick, the other is left thinking their instruction is being followed.

Answer key — quick reference

Canonical option order. The online test shuffles options per candidate, so verify by option text when checking a printed sheet.

Q	SEC	ANS
1	A	B
2	A	C
3	A	B
4	A	D
5	B	A
6	B	B
7	B	C
8	B	C

Q	SEC	ANS
9	C	D
10	C	A
11	C	B
12	C	C
13	D	B
14	D	C
15	D	C

SCORE	%	BAND	ACTION
13–15	87%+	STRONG	Shortlist — send to the technical panel first
9–12	60%+	AVERAGE	Proceed to interview normally
6–8	40%+	WEAK	Judge by role and experience
0–5	0%+	BELOW_BAR	Interview only if experience is strong

This score is a queue-prioritisation tool, not a hiring gate. It decides who the panel sees first on a busy day. A low score must never auto-reject a candidate with strong relevant experience — an experienced site supervisor may score low and still be the right hire. See §6.3 of HAGERSTONE_DRIVE_AND_ASSESSMENT.md.
